6. **I climbed Franey**
Franey Trail, 7.4 km loop
N46° 39.812' W060° 27.193'

Enjoy your experience but please remember these important points:

-  Please leave nature undisturbed by staying on marked trails.
-  All caches are located on, and are accessible directly from, park trails or infrastructure.
-  For safety of wildlife, please do not place any trade items in the cache.
-  Please pay all applicable park fees.
-  Any new caches must be approved before being placed in a national park.
-  As always in national parks: Take only pictures & leave only footsteps.

Hello, fellow Forest Keeper! Thanks for signing up to help us look after the forests of Cape Breton Highlands National Park. You can explore the forests and restoration projects for yourself, and while you're there, look for my postcards telling you what I've learned about the forests in the park. Here's how it works: 1. Follow the coordinates to each geocache. 2. Read the postcard in the cache. 3. Copy the postcard stamp into the grid below. 4. Use the second grid to unscramble the picture and the word. 5. Make sure to leave the postcard where you found it for the next Forest Keeper (but please don't leave anything else behind!) 6. When you've solved the puzzle, bring it back to the visitor centre in Ingonish or Chéticamp. 7. Show your completed cacheport to a Parks Canada staff member, along with your park pass. 8. Collect your limited edition Forest Keepers Geocoin! Happy caching! Regards, Rex the Raven
